

My Family

We all know about you. Now let us meet your family.

Paste your family photo here.

A family is a group of people who are related to each other. There are different kinds of families.

Write about your family.

My father's name is

My mother's name is

If you have brother write his name

If you have sister write her name

Note that all of you have the same last name! That is your **family name**.

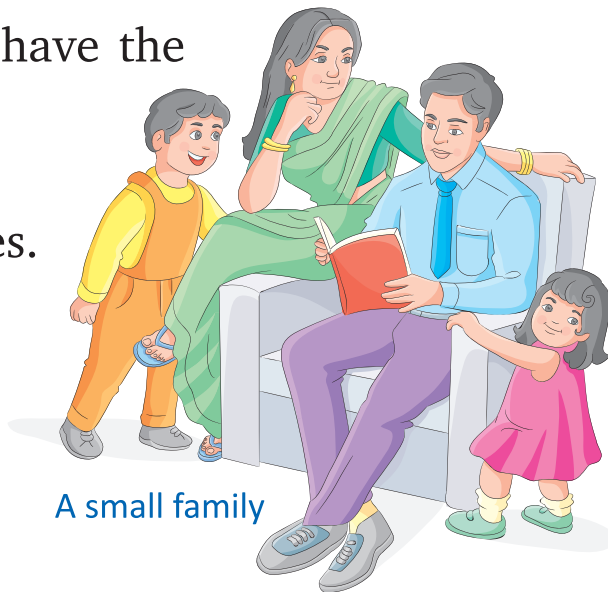

All the members of a family have the same last name.

TYPES OF FAMILY

There are **three** types of families.

1. Small Family

A **small family** has a father, mother and their one or two children. This type of family is also called a **nuclear**

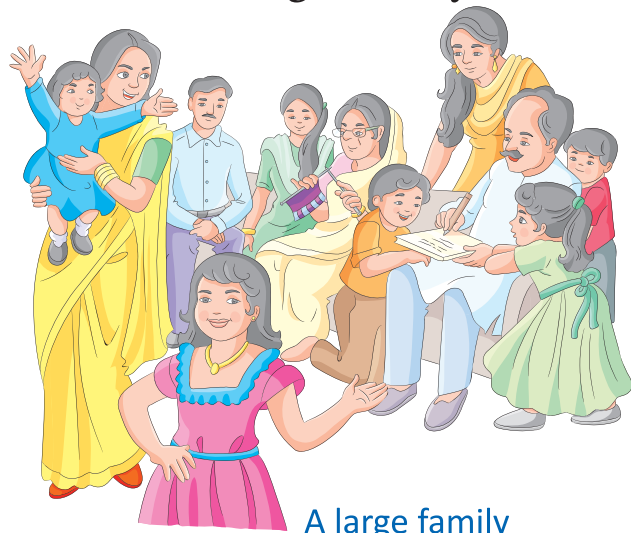

A small family

family. It has only three or four members. This type of family is a happy family.

2. Large Family

A large family has father, mother and their three or more children. A large family has many members.

A large family

ACTIVITY TIME

3. Joint Family

A joint family is a very large family. It has grand parents, father, mother, uncle, aunt and their children. All of them live together in the same house. Living in joint family is great fun.

A joint family

How are these related to us?

- The father of your mother is your maternal grandfather and the father of your father is paternal grandfather.
- The mother of your mother is your maternal grandmother and mother of your father is paternal grandmother.
- The sister of your mother or father is your aunt. Your uncle's wife is also your aunt.

- The brother of your mother or father is your **uncle**. Your aunt's husband is also your **uncle**.

Interesting Fact!

Some insects like ants also live in groups called **colonies**.
