Paste the picture
of your family
here.

This is my family.

TYPES OF FAMILIES

A family in which parents and their one or two children live together is called a **small family**. A small family is also known as **nuclear family**.

Small family

Large family

Joint family

A family in which parents stay together with their 3 or 4 children is called a **large family**.

In some families, parents and their one or two children live with grandfather, grandmother, uncle, aunt and their children. This type of family is called a **joint family**.

Fact To Know

Relatives from the father's side are known as **paternal** and those from the mother's side are known as **maternal**.

HELPING IN A FAMILY

In an ideal family, all the members help each other. They all share work at home.

Mother cooks food

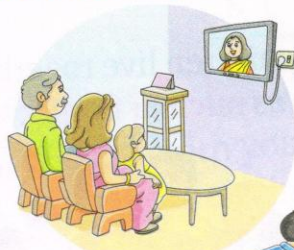

Children help in cleaning and watering the plants

Father brings things from market

ACTIVITY TIME

Look at the pictures and tick (✓) what you enjoy doing with your family.

Watch Movie

Go for a picnic

Play games

Pray

MY EXTENDED FAMILY

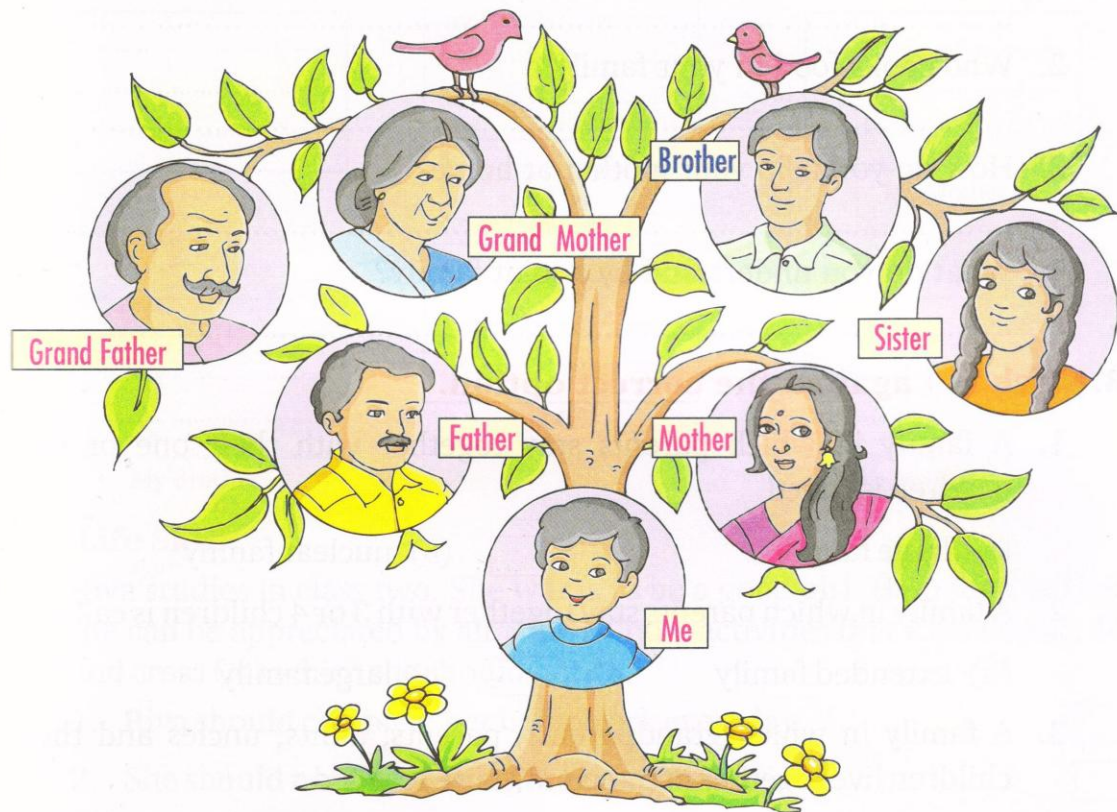

Our extended family members are our grandparents, uncles, aunts and cousins. Sometimes, we live far away from our extended family due to studies or work. Then, we meet during various occasions or visit them during vacations.

FAMILY TREE

A family tree is a chart of showing family relationship in a tree form.

This helps to know the relationship between the family members. Look at the following family tree chart. Note how different generations are related to each other.

My Family Tree

Points To Remember

- A family having one or two children is called a **nuclear** or **small family**.
- A family in which parents and their 3 or 4 children live together is called a **large family**.
- A family in which parents, grandparents, uncle, aunt and their children live together is called a **joint family**.
- We all should share work at home.
